Dimension <i>(Expectations)</i>	No Score	1	2	3	4	Student Self-Score	Teacher Score
Time Self-Management / Task Completion <i>(Groups self-managed time & completed tasks on time)</i>	Members of group constantly wasted time, did not finish the assignments on time and required frequent intervention by teacher	All members of group did not use time wisely, but at least 1/3 of the tasks were completed on time after some intervention by teacher	Most members of group used time wisely and at least 2/3 of the tasks were completed on time with only infrequent intervention by teacher	Almost all members of group used time wisely and all tasks were completed on time with intervention by teacher made only upon request	Group set up own time management schedule, completed all assigned tasks, and took time to review the finished products without intervention by teacher		
Duty Sharing <i>(Tasks were shared equitably and completed according to pre-arranged duty plan)</i>	Tasks were not assigned and/or no one took responsibility for developing or following a duty plan	Only one person seemed to do most of the work while others were inconsistent in following the duty plan	At least half of the group actively shared the tasks and followed the duty plan but the others were inconsistent	All of the group actively worked on tasks, but division of work load was not equitable as defined on the duty plan	All members of the group worked on the assignments according to the duty plan and they did an equitable amount of work.		
Group Discussions / Decision – Making <i>(Decisions were made fairly with input from all members.)</i>	No group discussion or decision- making occurred.	Only a few members made decisions without listening to others' ideas.	Group discussed ideas, but one or more dictated actions and/or not everyone was given equal consideration in making final decisions.	Everyone in the group discussed ideas and took part in decision making opportunities in a democratic manner by voting	Group made an extra effort to involve all members in decision making, incorporate divergent ideas, and logically determine the best course of action based on research
